CHAPTER 1

“WHO WE ARE”

Catawba Lodge – The Past, Present, and Future

Although Catawba Lodge is a relatively young lodge in the scheme of things, our traditions and history make for an amazing story. Officially chartered on June 18, 1951, our lodge has been a great association of brotherhood and cheerful service. From the many service project we have performed, to the long-term friendships that our brothers make, Catawba Lodge consistently invokes the ideals and values of E. Urner Goodman and Carroll A. Edson

Although 2015 marks the 100th anniversary of the Order of the Arrow, it is much more special to Catawba Lodge. 2015 also marks the 100th Anniversary of our Council and the icing on the cake was that we had the honor of hosting our Section Fellowship.

The brothers of Catawba Lodge have spent countless hours working to better our council camps. One of the most cherished camps was Camp Steere, just on the border of North Carolina and South Carolina. During the 1970's the council acquired property in foothills of North Carolina to build a new long term camp. It was named after one of the Lodge's Founders, Gene Grimes. Although Camp Steere was still in use as a day camp, the development around the camp had exploded and it was decided that a more suitable location was needed. Between 1987 and 1988, Camp Steere was sold and a new Camp, Clear Creek was purchased. Camp Clear Creek was rededicated as Belk Scout Camp, in memory of John Belk, the CEO and President of Belk Department Stores, a major contributor to scouting in Mecklenburg County Council. Today, Camp Grimes and Belk Scout Camp serve thousands of youth annually. The brothers of Catawba Lodge have served as an invaluable resource for the camps. Whether it is prepping the camps for summer, maintaining the camps' grounds and structures, or clearing and cutting new trails, the lodge does this all in the spirit of Cheerful Service.

One of the biggest service projects the Lodge assists with is the National Day of Service more commonly known in the council as "Scouting For Food". This project involves scouts, parents, and leaders distributing food donation bags and then collecting, sorting, and donating them to the local food bank. Catawba Lodge brothers have assisted this endeavor by staffing the collection sites. The efforts of the Lodge have paid off handsomely. In 2008, this effort collected 111,872 pounds of food and by 2014, the collections garnered 244,000 pounds. This service project has a lasting impact in the community throughout the year.

As mentioned earlier, 2015 is the Centennial for our local council, Mecklenburg County Council. MCC is one of only three in the nation with a geographic coverage of a single county. As the Brothers of Catawba Lodge hail from a single county, strong and long lasting friendships spanning decades are common. There are several families that have three generations who are active in the Lodge. This membership dynamic can be credited for helping make our Lodge a success story.

Catawba Lodge is a vibrant organization that has passionate leaders and dedicated advisors. As we look to the future, the members of the Lodge Executive Board are already working to elevate the Lodge to even greater achievements. The Lodge's Legacy is strong, the Brothers are eager, and the future looks bright!

CHAPTER 2

“WHERE WE CAME FROM”

The Order of the Pawnees

(Catawba Lodge's Pre-OA Society)

One candidate for membership described the Pawnees as one of the ugliest bunch of people he had ever seen. Walt Smith and others in 1926 felt that Camp Steere needed an achievement organization that the campers needed to fulfill during their week in camp. Almost every camp in the country developed a service oriented group or honor society that used Indian ceremonies as initiations. The ceremonial teams dressed as Indians usually in costumes reflecting the Indians in their particular area. Thus it was that the Pawnees were created and dressed as ferocious warriors.

The Pawnees took the point across from camp and built a stockade of logs and called it the Pawnee Lodge. It would be a secret organization made up of outstanding Boy Scouts. There were four or five charter members. The counselors and Chief Steere established the rules for membership. Campers would have to make some project for the camp that was useful such as a bridge or tower and it must be located at the camp. The members would note both the projects being built in camp during the week and the Boy Scout's attitude which would make them eligible to become a member. A meeting would be held at the lodge and then the initiates would be summoned. Sometimes they would be in solitude or tied to a tree and would then be brought to the stockade. Then an initiation ritual would be held. The initiates would be tapped and then would remain silent for two to three days. A few Scoutmasters were taken into the group and there were some honorary members like Smith and Jones of Independence Trust Co. "who took care of affairs." A couple of regional executives from Atlanta were also honorary members.

Sometimes the candidate was taken from his bed in the middle of the night and taken to the Pawnee ceremonial grounds. Beau Whitton remembered that he must have been 100 yards down the trail when he was fully awake and realized his feet were cold which brought him to his senses. He had left the campsite without any shoes. Ikie Wallace and Emma Pitillo were some of the first to be initiated into the Lodge. Wallace remembers that after the ceremony the candidates had to walk the trail back to camp so they just spent the night at the ceremonial grounds and walked back the next morning. The day after they had hiked the trail back to camp illegal liquor still was raided about fifty yards off the trail where they had just hiked the day before. For their project they built an entrance for the nature trail. He felt it was "sort of sad" but they had built something. Dickie Davis remembered having to dig a three-foot deep hole to plant a tree in the narrow part of the peninsula. He said it was the hardest dirt he ever saw and that nothing ever grew in it. Essie Anderson built a bridge somewhere near the lodge. The Pawnees as a group built four fire towers around the camp in the 1920-30s.

As part of the 75th Anniversary of the Order of the Arrow, Eric Maillet and Bernie Samonds interviewed Brevard Myers and Jim Hewson and some others about their experiences as Pawnees and related them in a lodge newsletter. Their findings showed that a Boy Scout had to be at least a Second Class Scout, a good swimmer and active in most of the camp activities. O. A. Crenshaw remembered that there was a "Pledge Week" and during that week you had to do a project and his was building a bridge across to an island. It had to support ten boys and he had to build it himself in his spare time. Brevard Myers cleaned a nature trail around the shoreline to Pawnee Point that also included building footbridges along the way. The difficulty of the testing progressed through the week until the Boy Scouts spent a day of silence. Then that night the selected Boy Scouts were awakened and taken for the ceremony.

Bill Faulk remembered that in the 1940's when he was initiated into the Pawnees they were given one match, an egg and a piece of bread. They then cooked the egg in a cup they were given. Lunch was nothing more

than a bologna sandwich. They worked in silence while digging holes, cleaning out culverts, and planting a rose garden at Camp Steere. Faulk thought that there was a Pawnee patch. It was described as a felt patch that looked something like the US 7th Army Indianhead patch design. Others remember that the Pawnees wore a beaded necklace.

The Pawnees in 1941 met either across the river from Camp Steere or at the camp. Harry Hewson was Chief and the lodge or stockade for ceremonies was thirteen years old that summer. In 1943, Young DeWitt was presented with the Outstanding Boy Scout Camper Award by the Pawnees. Pawnee Point, which today is in McDowell Park, had a stockade or ceremonial ground built out of pine slabs that were all weathered and gray. Inside during ceremonies were a number of fires and standing on some rock mounds were costumed Indians in front of cutouts of thunderbirds that Indians considered as a powerful symbol. The legend of the Pawnees would be told by Chief Steere whom they say was very impressive. They recalled that no Scoutmasters or professional Scouters were allowed as members but an occasional Assistant Scoutmaster or Junior Assistant Scoutmaster would be allowed into the meetings.

The first mention of discontinuing the Pawnees and organizing an Order of the Arrow Tribe occurred in the Camping and Activities meeting in late 1942. The question was brought up to the Council Executive Board Meeting on May 19 1943. The main point of contention was that the Pawnee membership voted in new members while the members of the individual Boy Scout troop, who were not necessarily OA members, voted on who would be members of the OA from their troop. After some discussion, the motion was sent back to the committee for further study. In 1951, the council organized the Order of the Arrow Lodge. During the 1970's some of the Scouters who were active in the 1950's and possibly in the 1960's recalled that some troops had not accepted the Order of the Arrow and still continued the Pawnee ceremony on their own. One of the interviewees said "he could remember an Indian with a full bonnet coming into the dining hall and taking a Boy Scout out to do a Pawnee initiation".

While researching the Order of the Pawnees, someone donated a copy of the Pawnee Indian Lodge Pledging Ceremony and Initiation Ceremony. The original was written by Walt Smith, however it unknown if the donated copy is the same as the original.

Pawnee Pledging Ceremony

(Taken from the donated version)

“The Pawnee Indian Lodge has met in council and has decided that you _____ have made a worthy camp project, have shown an excellent camp spirit, and therefore they have voted unanimously to accept you as a pledge of the lodge. This is a very serious decision for you to make and one that should require a great deal of work on your part to prove that you are worthy of being a Pawnee. Think seriously upon the matter. Should you accept, it would mean that you must not only live up to what you have in the past in the way of ideals of camp life, but that you must ever strive to improve your Christian character and camp spirit.”

A lapse of ten minutes should follow, with absolute quiet.

“We have heard the hoot of the owl in the distant cove; we have heard the bark of the fox in the big woods; we have heard the splash of the fish in the lake; we have heard the voices of many of the smaller night creatures; we have sat in council together and have been drawn closer by the comradeship around the fire. Now is the time to make your decision. If you wish to become a Pawnee pledge, make it known by saying HOW; if not, you may return to the boat.”

Council rise, “May the Great Spirit put sunshine in your hearts”

Pawnee Initiation Ceremony

(Taken from the donated version)

Invocation: Oh Great Mystery, we beseech thee
That we may walk reverently
Beneath Lap-pah our brothers, the trees;
That we may step lightly on
Kiso, our kinsmen, the grasses:
That we may walk lovingly over
Loo-poo-oi-yes, our brothers the rocks;
That we may rest trustfully
Where the O-le-le bird sings,
Beside Ho-ha-oe, the talking waters.

Legend —

Pledge by Firebrand

Oath: With the aid of the Great Spirit, Itius Tirawa, I promise to do my best to maintain the high ideals of camp life and Scouting that the Pawnees promote; to uphold its traditions and protect and defend its secrets; to apply myself diligently in the arts of woodcraft, Indian, and nature lore; and to protect my Pawnee Brothers.

Singnature(sic)

Congratulations.

CHAPTER 3

“WHAT HAVE WE DONE”

Our History of the Golden Arrows

Catawba Lodge began attending the Annual Dixie Fellowship in 1954. This is the section fellowship meeting where all lodges of our area come together for fun, fellowship, and a learning experience.

In 1954, the area lodges attending the annual Dixie Fellowships first established the Golden Arrow Award. This annual award is presented to the lodge that scores the most points in the Quest Events during Dixie. These events tested the strength, skill, and endurance of each lodge delegate who participated. Canoe Racing, Egg Toss, Softball Throwing, and many similar events made up the Quest Challenge.

In order for a lodge to retire a Golden Arrow, the same lodge had to win the Quest Event for 3 consecutive years. From 1954 thru to 1982, only 4 Golden Arrows were ever made and later retired. Catawba Lodge is the only lodge in the section to ever retire a Golden Arrow and as you can see, we have retired all four of them. In 1983, Catawba Lodge was moved to different OA section thus ending their participation in the Dixie Fellowships. However, in 1998, Catawba Lodge moved back into their previous area and is competing once again for the Golden Arrow. It is unknown if any of the Dixie Fellowship Lodges have retired a Golden Arrow while Catawba was not participating, nor since they have returned.

These retired arrows demonstrate how we have worked together in the past, and give us inspiration to follow in future Dixie Fellowship quest events. Each Golden Arrow that Catawba Lodge retired is listed below along with the years that the lodge won the Golden Arrow. These awards are some of Catawba Lodge's most cherished memorabilia items in our collection. We are looking forward to adding a 5th one in the future!

The History of Our Ceremony Ring

Catawba Lodge Ceremony Ring Clear Creek Scout Camp Dedication Ceremony March 19, 2005

Sometime during 2001, expansion of the Webelos area of Clear Creek Scout Camp (now known as Belk Scout Camp) forced the Lodge to consider the relocation of our ceremonial ring. Working with the Camp Ranger and members of the council properties committee, a new location for our ring was selected. It was determined that if the lodge was to be an integral part of the council program, and camping traditions were to be established, a significant effort would be required to build this special place

During the 2002 Lodge Strategic Planning Conference, the lodge officers were taken to the site of the proposed new ring and asked to develop a vision of what could be. They imagined a ring large enough to seat over 200 Brothers, a raised fir ring, an entranceway, a bridge over the creek, an access for physically disabled Brothers, and a changing area for the ceremonial team. They imagined a permanent structure that would last as long as Clear Creek Scout Camp, a tradition of camping for future generations of Scouts, a legacy for Catawba Lodge.

This vision was put to paper through the coordinated efforts of the officers, advisors, landscapers, and landscape architects. Once the vision was crystallized, a way to make it happen began to unfold. The development and sale of the Light House Flap collection provided the financing. This dream was brought to fruition by the volunteer efforts of Brothers designing the ring and providing project management; Brothers supplying and using personal heavy machinery; donations of construction and landscaping materials; local businesses donating other goods and services; and many Brothers working numerous weekends. It is estimated that over 4,000 man-hours were worked in 2004 alone. So many have given so much and a tradition has been established!

SR5 Dixie Fellowship

April 24th – 26th 2015

Belk Scout Camp

Midland, North Carolina

Hosted by Catawba Lodge #459

On Friday, April 24th 2015, Catawba Lodge had the honor and privilege of hosting our sections Dixie Fellowship. However, the planning for this event began 18 months prior to the actual date. The Dixie Committee was chaired by Nick Zanzot and his advisor was Craig Orr. With the help of hundreds of Catawba Lodge Brother, all the preparations were completed on time and the event ran smoothly.

This year's Dixie included 10 Lodges from North Carolina, South Carolina, Georgia, Although the weather could have been better, the 1257 delegates appeared to have a great time. Unique to this Dixie, the Visiting Lodges were invited to bring and setup their Teepees next to the Dance Arbor and Indian Village. Awesome is the only way you could describe this scene.

To the left and above are pictures taken inside the Indian Village which was one of the biggest attractions at the 2015 Dixie Fellowship

CHAPTER 4

“THE STORY BEHIND OUR LODGE MEMORABILIA”

History of the A-1 – First Patch Issued

The A1 was created by Gene Grimes, one of the founders of Catawba Lodge in recognition of Ordeal Candidates. The design of the A1 includes the hornet's nest, which is the totem of Mecklenburg County, North Carolina. The long running Catawba Lodge tradition of the hornet's nest with the crossed peace pipe and tomahawk, and including the red arrow running through the three "W"'s has always appeared on all of Catawba's standard flap issues. The name of the Lodge "Catawba" comes from the Native American Tribe of this region who called themselves the "Catawba's". What a lot of the brothers in the section do not realize about the A-1 is that there were only 180 of these produced. They were only around for about a year before we went to the F1. The Catawba Lodge A-1, F1, F2, and S1-S4 were one per life. If you have ever gotten one of these flaps or patch series and noticed the tiny snaps in the corners, these were there to prevent sewing the flap onto the pocket. In order to receive the S4 Brotherhood Flap that was distributed in 1973, the Ordeal Flap had to be turned in, hence the need to snap the flap onto the pocket versus sewing it on. The Ordeal Flaps that were turned in were re-issued to new Ordeal Candidates. The F1 that was produced in 1952 had a production run of 100 and in 1953, the F2 only had a production run of 140.

A-1: 180 Produced, 1951 - 1952

F-1: 100 Produced, 1952

History of the N1 – First Neckerchief Issued

The cartoon bee, as it is affectionately known, was designed to be worn by the Catawba Lodge Delegates to the 1965 NOAC Convention. Unfortunately, these did not arrive in time for the convention and were not issued to the delegates. As a result of the delayed shipment of the N-1 Neckerchief, the Lodge chose to order additional units and began selling them to the Catawba Lodge Members at Lodge events beginning in 1966.

N-1: 100 Produced, 1966

History of the J1 & N3 – Dance Team Jacket Patch and Neckerchief

In the later part of 1965, the Lodge Dance Team decided to produce a jacket patch that could be earned by the Dance Team Members. At the time, the Lodge Dance Team was very prominent and chose to use a Fancy Dancer as a basis for the design of this Jacket Patch. In 1966, the newly elected Lodge Chief, Don Blackmon, employed his mother to draw the Jacket Patch. Using the Lodge Totem, the Fancy Dancer and adding the words “Dance Team” to “Catawba Lodge”, the patch design was approved by the Lodge Executive Board.

A total quantity of 30 of the J-1 Catawba Lodge Dance Team Jacket Patches were ordered. Once they were produced and the Dance Team Members began earning them, the Lodge adopted the idea of similar looking jacket patch and produced the first official Catawba Lodge Jacket Patch in 1970. This version did not have “Dance Team” embroidered on it and was known as the J-2. Since the J-1, there have been two other “Dance Team” Jacket Patches. The J-7 consisted of 25 patches as did the J-10 version. Due to the limited quantities of these patches they have become some of the more difficult patches for collectors to acquire.

The “Dance Team Neckerchief” was designed as an award for Dance Team Members. To earn the neckerchief, a Dance Team Member had to dance at 6 lodge functions and / or Dixie and NOAC. There were 60 of the N-3 Neckerchiefs produced and restricted to 1 per dance team member.

J-1: 30 Produced, 1966

J-3: 25 Produced, 1985

J-10: 25 Produced, 1990

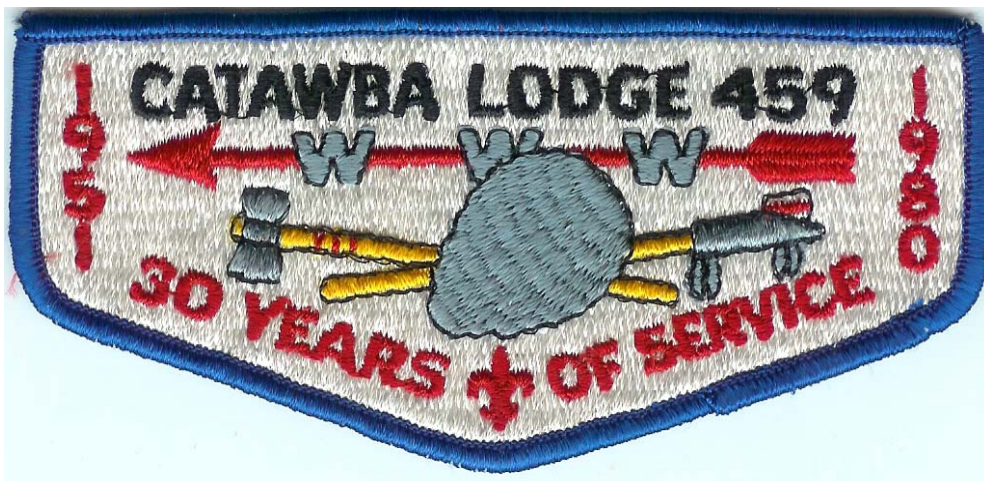

N-3: 60 Produced, 1978

History of Our Lodge Flaps

One of the hardest flaps in the collection of Catawba Lodge Flaps to find, the S-14 had a production run of 200 units and was designed and produced to honor the 30th Anniversary of Catawba Lodge.

The S-17, known as the upside down triangle, is the hardest flap in the Lodge Collection for collectors to find. Produced in 1982 with a production run of 150, only 6 had been issued when the Lodge Quartermaster noticed the triangle was upside down. The remaining 144 flaps were to be sent back to the manufacturer to be destroyed, however this did not happen and the S-17 began circulating in the patch trading community.

The Lodge's LEB in the early part of 1987, decided the Lodge needed a service flap. The flap was designated S-28 and 400 units were produced. You could earn the flap by completing a set number of services hours at Camp Grimes. During the distribution of the flaps, it was noticed that several of the flaps had been misprinted with Lodge #46 instead of #459. Some of these misprinted flaps were given to brothers that had earned them. Like the S-17, the remaining misprints were to be returned to the manufacturer to be destroyed but it is unknown if this took place.

S-14: 200 Produced, 1980

S-17: 150 Produced, 1982

S-28: 400 Produced, 1987

2013 – Dixie Theme “The Hatfield’s and McCoy’s – The Feud Continues”

For the 2013 Dixie Fellowship, each Catawba Lodge Brother received a corn cob pipe (125 Made). Also, each Brother received a blue or red bandana. The lodge was split up between the Hatfield’s and McCoy’s. And also, each Brother was asked to bring some type of pig, as this was the premise for the start of the famous feud between the two families. Throughout the Dixie Fellowship this year, the Brothers of Catawba Lodge were dressed in Bib- Overalls and Straw Hats.
